Prudence
Should Lead You
to deposit your money
in a good bank rather
than keep it where it is
exposed to all kinds of
risks. If the Garrard
Bank & Trust Co. offered
no other inducement than a sure place to
keep your cash it would
be well worth while to open an account there, but it offers
many others. Come and ask any of the officers what they are.
Three per cent paid on time deposits.

New Proprietors.

The confectionery of Moore Bros. of Nicholasville has been sold to Messrs. Virgie and Ralph Scott, of Garrard county, who will conduct an up-to-date restaurant.

Many Thanks.

Mr. R. G. Brattin of the Hubble section was in town Saturday afternoon and left the editor a large water-melon and it sure did taste good on the following hot Sunday afternoon.

Mr. King Buys Farm.

Mr. W. T. King of Lowell, the popular auctioneer, has purchased of Mr. C. B. Flannery his farm of 177 acres, which lies on the Richmond pike near Hyattsville for \$80, per acre, possession to be given on Jan. 1, 1913.

Gone To Market.

Mr. Arthur Joseph, the buyer for The Joseph Mercantile Co. has gone East to purchase a large assortment of merchandise and to get the latest styles. He will be gone several days, during which time he will visit the wholesale houses in New York, Chicago, Cleveland and Cincinnati.

Must Be Allowed Eat.

Miss Gracie Comley is learning cases in the Record office, and as is the case with all beginners, she sometimes gets "p's and q's" mixed, as was shown by last week's edition. However Miss Gracie is learning rapidly and it will not be long before we will not be compelled to ask the indulgence of the public on her account.

Couldn't Get A Better Man.

Mr. James B. Walker has announced his candidacy for the democratic nomination for County Clerk of Madison county. He is a brother of the late T. B. Walker and of Mesdames W. O. Rigney and B. F. Hudson of this place.

No cleverman than "Jim" Walker ever lived and the people of Madison would not go amiss in electing him to office.

Silos Will Sell High.

The latest discovery of the Department of Agriculture is a cow with a good sized "jag." This discovery came about through a letter written to the Department by a Virginia dairyman who, alarmed by the peculiar behavior of an ordinarily perfectly mild animal after munching a ration of ensilage, appealed to the sharpes for information. The Department made an investigation and found that the cow had feasted on fermented cornstalks that had been reposing at the bottom of the silo and had simply gotten drunk on raw bourbon whisky—that's all.

Bring Him Over Here.

We notice that Mr. C. D. Thompson of Harrodsburg is to have a tree doctor to visit his home for the purpose of treating a fine old elm tree, which is in declining health. This brings to mind the fact that almost every elm tree in this county is in bad health, every summer the foliage dies and the appearance of the tree and its usefulness as a shade giver is ruined. In one case we know where several of these fine trees were cut out of one of our townsmen's yard. Why not let Mr. Thompson's physician come over and at least diagnose our cases?

Mr. Kennedy Appointed Guard.

Mr. J. H. Kennedy, of this city, received notice Saturday of his appointment as guard at the Frankfort penitentiary. His selection to this position will be gratifying news to the friends of this excellent gentleman, who has always been one of Madison's most loyal and faithful Democrats. Mr. Kennedy will leave at an early date to assume his new duties and the well wishes of all go with him to his new home.—Climax.

Mr. Kennedy is a relative of Mr. S. B. Henry and has many friends in Garrard county who will be glad to learn of his securing this position.

To Georgia For The Winter.

Mr. Jacob Y. Robinson left Tuesday for Butler Ga., where he will remain until Jan. 1st, when he will go to Columbia Ga. for the remainder of the winter. He will engage extensively in the handling of mules. Mr. Robinson will be followed shortly by his brothers J. Fleece and George D., who will endeavor to seek out a suitable location in Georgia, and if they succeed in finding a suitable location, they too will spend their winters in that state, and will also be joined by their Mother Mrs. Jane Robinson. We are glad to state that all of these gentlemen will continue to retain their citizenship in and call Lancaster their homes,

Big Barbecue and Rally.

The big State wide Democratic Ratification meeting, barbecue, burgoo and open air speaking to be given at beautiful Woodland Park in Lexington, Ky., on Sept 19th, is to be one of the largest democratic meetings ever known in Kentucky. Speakers of national fame and all the big Kentucky democrats will be on hand and a general big time is expected. All the bands in Lexington and neighboring towns have been engaged. The committee in charge have already given orders for thirty thousand plates which gives an idea of the number of people expected. A number of people of this county have expressed their intention of going.

The Baptist Ladies Aid Society will give an exchange and bazaar, Decem-ber 6th and 7th.

Mr. Jesse Arnold Operated On.

Mr. Jesse Arnold who for several years has held a position in Frankford was operated on last Tuesday morning for Appendicitis and is reported as doing nicely. His many friends here hope that he may soon recover.

We want to congratulate Judge Chas. A. Hardin for the able manner in which he has disposed of business this court. The more we see of him the better pleased we are with his decisions. He is considered one of the best in the state, and compliments come upon every side.

Mr. C. Hays Foster of Stanford was in town Monday. He is the manager of the Stanford Opera House and tells us that he has arranged to have on Saturday night Sept. 7th the famous Coburn minstrels. This is a dandy good minstrel which 28 black face comedians and a big crowd will likely attend from here. This is the only minstrel playing in Stanford this season, so this is your last chance to hear the latest jokes.

Mr. Geo. Smith Jr., the assistant editor of this paper is spending a ten days vacation at West Baden, Ind. where he goes every summer, the attraction being the fine water and baths given there and not the sweet summer girls usually found at such places. He stopped over in Lexington last Saturday and Sunday to be with his brother Logan who is reported as speedily recovering from his recent attack of appendicitis.

Assistant Editor On Vacation.

Mr. Geo. Smith Jr., the assistant editor of this paper is spending a ten days vacation at West Baden, Ind. where he goes every summer, the attraction being the fine water and baths given there and not the sweet summer girls usually found at such places. He stopped over in Lexington last Saturday and Sunday to be with his brother Logan who is reported as speedily recovering from his recent attack of appendicitis.

Beloved Mother Passed Away.

At 12:30 P. M. on last Friday the spirit of Mrs. J. M. Acton passed away at the early age of 34 years. She had been in declining health for several months and her death did not come as a great surprise. All that loving hands and skilled physicians could do was done to save her life but in vain. The Lord has seen fit to take her away and what He does is for the best. Funeral services were conducted at the home on Sunday afternoon by Rev. O. P. Bush and the interment in the Lancaster Cemetery. Mrs. Acton was of a kind and generous disposition and made friends of all who came in contact with her. She loved her home and her family and found pleasure in them. All her neighbors loved her and were kind to her during her late illness. She had the love and respect of the whole community, and was never happier than when she did a good turn for a friend. At the early age of 15 she joined the Baptist Church and was a devout member of that church until her death.

She was married to Dr. J. M. Acton about seventeen years ago and has lived in this town since her marriage. She is survived by her husband Dr. Acton, three children, Carl and Misses Fay and Florence, before her marriage Mrs. Acton was Miss Louisa Morgan daughter of Marshalland Elizabeth Morgan of Lincoln County. She is also survived by her mother, two sisters, Mrs. Padgett of Dickson, Tenn. and Mrs. Leach of Lincoln, and one brother Mr. M. J. Morgan of Lincoln County. The Record extends its deepest sympathy to the bereaved family.

Humble Telephone Co. Lines Are To Come

Into Lancaster.

The City Council of Lancaster met in the City Court room on last Monday night, all the members of the council being present. There were also present about one hundred and twenty-five people who are interested in the town and county and who want to see the proper telephone regulations. It will be remembered that at the August meeting of the council, the citizens of Hubble who have organized an independent telephone company asked for permission to run its lines into the city of Lancaster and that at the last moment, one of the members of the council left the room and broke the quorum.

The Hubble people were again in evidence at the last meeting, many citizens of that section having come into town to see what would be done. The fight for the Hubble people was lead by Councilmen Parker Gregory and W. M. Zanone while Councilmen Wm. Herndon and G. S. Greenleaf opposed letting them have any phones in town.

The proposition was finally put to the council to grant a restricted franchise (one that can be revoked at any time) to the Hubble Telephone Co. and councilmen H. C. Hamilton and B. F. Walker voted with Messrs. Gregory and Zanone. This means that the Hubble Telephone Co. will run its lines into the city of Lancaster and have three phones in town and the rates to all

will be one dollar per month, so if the Bataine Telephone Co. claim they can't afford to furnish phones to the country people at this price, it does seem to us that these people who are willing should be given the opportunity.

Mr. Bastin was present and offered to let the new company come in over his lines and connect with him but of course the officers of the new company could not accept the proposition until they knew what the charges would be.

We congratulate the new company and hope that they will succeed in their undertakings and will satisfy the general public. The exchange of the Hubble Co. will be at Hubble.

Public Sale Of LAND

And Personality.

As Executrix of James Robinson, deceased, I will sell to the highest and best bidder at his late residence, near Hubble in Lincoln County, on

THURSDAY, SEPT. 12th, 1912
the following personal property and real estate.

The sale will begin promptly at 10 o'clock a.m. The farm is composed of about 265 acres and is about 5 miles from Lancaster, 64 miles from Danville and about 5 miles from Stanford, and is divided into two tracts by the Old Danville and Lancaster turnpike with about 170 acres in one tract, and about 95 in another. This is an unusually well watered farm, the land lying practically level and is all under good fence.

The farm will be offered in two tracts and then as a whole and the highest and best bid will be accepted. This farm is unexcelled in Central Kentucky in its fertility, beauty, and convenience. What is known as the home tract has been used almost exclusively as a stock farm for fifty seven years, about sixty five acres in virgin soil in bluegrass with some very fine sugar tree, walnut and ash timber.

About sixty acres has been in blue grass about fifty years without being plowed and the remainder of the place has been plowed only a few times in fifty years. The home place is watered by six never failing springs, two wells, one good pond and a large cistern. There is a large residence, a good stock barn and a tenant house on the home place.

TERMS—One third cash, one third in one year, one third in two years and notes will be required and a lien retained upon the land, rates bearing interest at the rate of 6 per cent from the date of the sale. Any one desiring to look at this farm will call upon either J. E. Robinson, at Lancaster, J. A. Robinson or John C. Robinson, Danville, Kentucky, who will take pleasure in showing it. This farm will be sold without reserve or by bid to the highest and best bidder. This is a rare opportunity to obtain one of the best farms in the blue grass of Kentucky.

The following is a part of the personal property:

Twenty-six 200 pound cattle, quality good, five good milch cows, grade herd, two good grade hereford heifers; 1 shorthorn bull; 3 calves; sixty six stock ewes; 1 pair of aged work mules; 1 five year old mule; 1 four year old mule; 5 coming four year old mules, all well broke and good ones; 3 two year old mules, well broke; 2 broad mares; 1 mare mule colt and 25 stock hogs. Also about four hundred bales of hay, one vulcan turning plow, good as new, 1 cutting harrow; 1 McCormick binder, good as new; 2 two horse wagons; 2 drag harrows; 1 slide and other farming implements too numerous to mention. Also about 30 acres of corn.

Also 15 shares of stock in the First National Bank of Stanford, Ky.

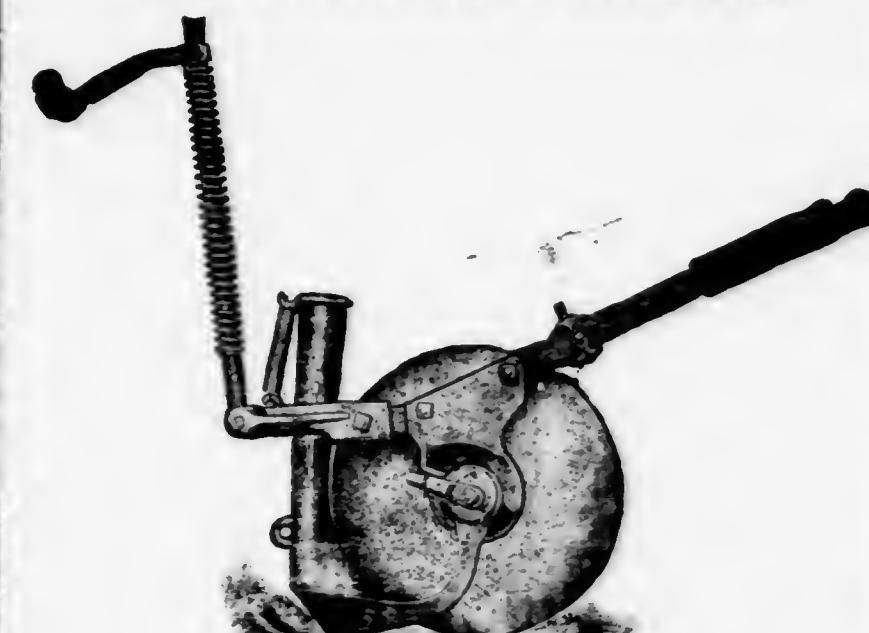

Dinner served on the grounds. Any further information call on J. E. Robinson, Attorney, Lancaster, Kentucky.

Good Prices.

Hughes & Swinehord report the following sales—At public outcry for L. H. Brown, 342 acres at \$65.00 per acre to J. I. Hamilton, W. L. Lawson and C. A. Arnold; Mrs Hallie Dunlap's residence on Lexington ave to Mr Alex Walker at \$2000.; Mrs E. W. Smith's property on Lexington ave. to Mrs Hallie Dunlap at \$4000. The personal property at L. H. Brown's sale sold well.

Robinson Sale.

The public sale on Sept. 12th of the estate of Mr. James Robinson at the late residence near Hubble, Ky. will be largely attended. A number of good cattle, mules and other live stock will go under the hammer to the highest bidder. The farm will also be sold to the highest and best bidder as directed by the will. This is a very desirable and convenient homestead. The farm is in the highest state of cultivation and the fortunate purchaser will have one of the best farms in Central Kentucky.

Patrons Of The Lancaster Graded School.

The school session will not begin before the 16th at least. The desks that were ordered have not yet come and of course we cannot begin work until these shall have come. The school will be held under somewhat difficult circumstances but if we expect much of the children we will get much—so help me by expecting much and by seeing that some work is done at home.

I am glad to say that all the graduating class of the past session will go to school somewhere—thereby better fitting themselves for life in a better way.

I shall offer three medals this year. I will give the usual medals in High School, English and Mathematics and I shall offer a medal to that pupil of the Garrard County schools (not a High School pupil) that makes the highest general average on the county graduation examination in January and May 1913—this applies to the pupils of 8th grade of the Lancaster Graded School as well.

Do not be worried about your children wandering about on the streets during school hours for that will be reduced to minimum. J. L. Riley.

What Should Determine The Futures Of Our Young Men.

'What is to be my future career' is the question that every young man asks himself when he reaches the age of thinking of earning a livelihood. Some boys immediately after leaving High School take up some commercial pursuit or enter the employ of some firm with a view of finally becoming financially interested. A good education is the basis of real success in life. In the first place a man should be educated in order to appreciate fully the art of living, and it is only through a good education that a man is able to rise to the more important positions in our industrial life. This is an age of practical education and our Universities have developed courses of study that not only have a cultural value but also are designed to equip men for being useful in some phase of life that is in

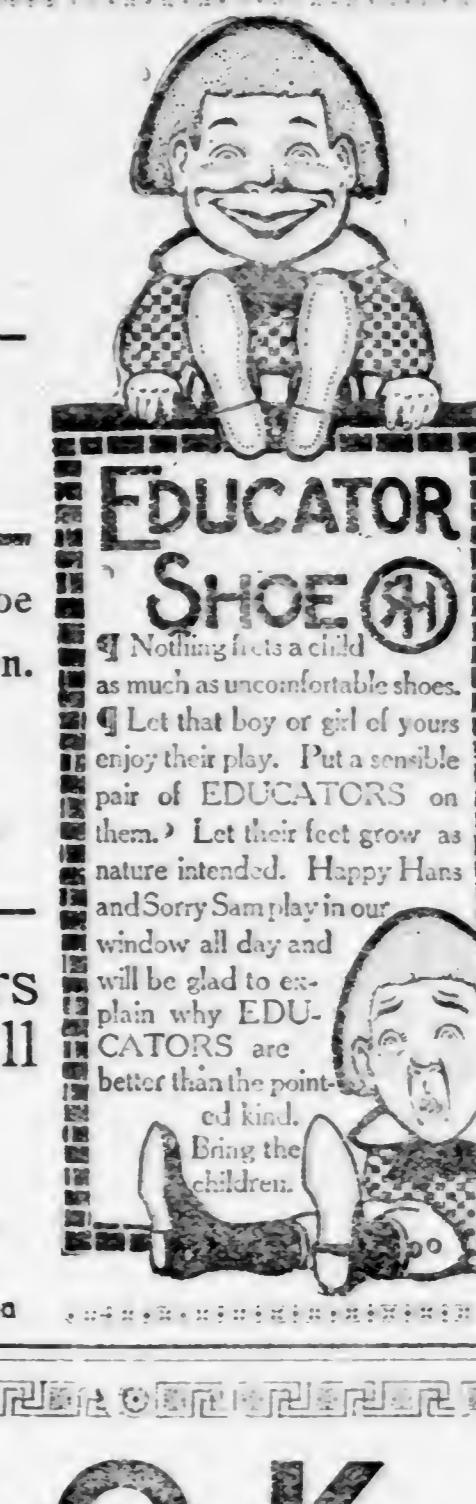

a sense material.

The graduates of the College of Mechanical and Electrical Engineering of the State University of Kentucky are fine set of young men as ever graduated from any educational institution. A bulletin has just been issued which shows that practically every graduate of this school is in a position to earn a good salary and at the same time be an important citizen. His attainments have given him social prestige. The Kentucky young men have been so successful in years gone by that there is an unusual demand for the graduates from the State University in Mechanical and Electrical Engineering. Each year there are many more applications for graduates than there are available men. When a man graduates from the State University in these technical courses he does not have to wait a year or so for some lucrative employment but he has a place to go to immediately after he graduates, and at a good living salary, and it is only a question of two or three years until he occupies a position that pays him more than he would have been able to earn in ten or fifteen years without his training. It is a good investment for a young man to spend four years of his life in becoming skilled in the greatest profession that the world has ever known. He could have no better capital handed to him than an education in mechanical and electrical engineering, which he is able to get practically at the expense of the State of Kentucky. There is no University in the whole United States that makes such liberal concessions to her students as does the State University.

This institution is not a money making school. It was established by Kentuckians for their sons and daughters, and every young man who does not take advantage of the opportunities offered by this great University is losing something that the State intended for him.

As this is the beginning of the fall term it is the wish of this paper that every young man who has not fully decided upon his life's work should write to the College of Mechanical and Electrical Engineering, State University of Kentucky, and acquaints himself with the course of study, conditions of admission, and the number of positions that are available each year to the graduates.

There is no question about the fitness of Kentucky men as mechanical and electrical engineers. This point has been settled for many years, and some of the greatest engineering concerns of this country have more men employed who are graduates from the State University of Kentucky than they have from any other school. The young Kentuckians who have gone out into industrial activities have made such records as to convince manufacturers and builders of machinery, operators of power plants and railways, that there is no better type of American engineer than the one who comes from Kentucky. We hope that every young man who has it within his power to obtain a University education will take advantage of the conditions that have been established by the Commonwealth of Kentucky.

R. E. McRoberts & Son.

The Remington Gun demonstrates the only lever action Pump Gun.
REMINGTON UMC
PUMP GUN
Solid-Breech, Hammerless, Safe.

Bottom Ejection—empty shells are thrown downward—smoke and gases must go the same way, too—insuring uninterrupted sight—rapid pointing always.
Solid Breech—Hammerless—perfectly balanced—a straight strong sweep of beauty from stock to muzzle.
Three Safety Devices—accidental discharge impossible.
Simple Take-Down—a quarter turn of the barrel does it—carrying, cleaning, interchange of barrels made easy—your fingers are your only tools.

For trap or field work the fastest natural pointer. Your dealer has one. Look it over today.
